

Medical Hand Scrub

Scientifically proven, medical grade, alcohol free antiviral and bacterial hand scrub for high risk environments. Contains plant based moisturisers to reduce the risk of skin irritation compared with other products.

Our medical grade Medical Hand Scrub has the following benefits:

- Independently tested to the highest British and European standards BSEN1276
- Product is non-hazardous and non-toxic and has been MEA tested to ensure it is safe to use
- Alcohol free, pH neutral and dermatologically tested, so gentle on skin
- Non-hazardous - Conforms to the latest health and safety legislation
- Economical - Superior cleaning action means you use up to 30% less product per scrub, compared to traditional alternatives
