MT-KCD SERIES**

MULTIPLE FUNCTION ELECTRIC WINCH

Model: MT-KCD

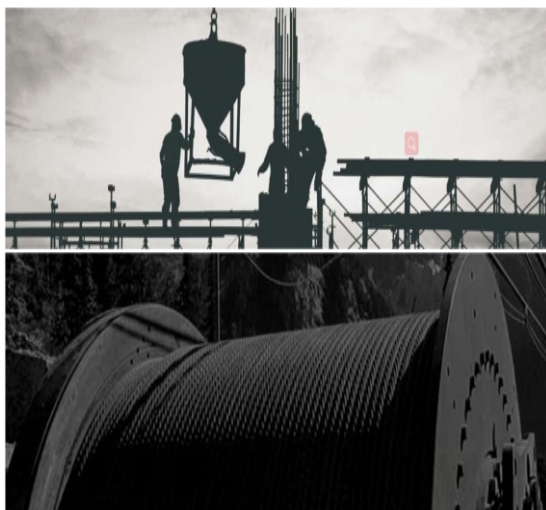

2500- 5000 KG

MT-KCD are specially designed and developed for multiple function purpose. They adopt mature technology, universal parts and reliable structure for stable working performance. This model electric winch can be widely used on various kind of working applications. The structure is simple so less maintenance is required. Spare parts can be easily found and replaced. By adopting MT-KCD electric winch, customers can handle different works more easily and quickly.

Product Features

- ★ Efficient and reliable motor, with mature technology, processing, and good heat dissipation.
- ★ High strength (1770MPa) steel wire rope adopted as standard. Clean and well greased.
- ★ Forged by alloy steel made high strength hook with latch attached can make sure good safety guarantee.
- ★ High enclosure class IP55 for complete machine which allow to use outside environment.
- ★ Steel made cover and shell can prevent heavy impact on winch body and protect the parts inside.
- ★ Wide range voltage available. (220V/380V/440V, etc)
- ★ Solid and free-fumigation wooden box packing suitable for land & sea shipping.

Model		MT-KCD 2500	MT-KCD 5000
Rope Reeving		Single	Single
Capacity (kg)		2500Kg	5000Kg
Speed (m/min)		14~7	14~7
Rope Length (m)		0-100M (BY REQUIREMENT)	
Rope Dia. (Mm)		15mm	22mm
Motor Power		7.5kw	13kw
Power Supply		AC 220V / 380V / 440V 3 Ph	
Basic Dimensions (cm)	L	132 cm	234 cm
	W	67 cm	92 cm
	H	97 cm	114 cm
